Woodmeister Wins Gold at Luxury Living Awards

(Worcester, Mass.) Woodmeister Master Builders, a Worcester-based company known nationwide for its custom millwork, cabinetry, and residential design and construction work, was awarded a gold honor at the Luxury Living Awards ceremony held April 6th at the Seaport World Trade Center in Boston. Winners were announced at a dinner and award celebration.

The Luxury Living Awards is a juried home design competition that recognizes New England's "most beautiful living spaces." Over 6,000 architects, designers, remodelers, and other industry professionals were invited to submit entries in 10 different categories. Winners were selected anonymously by a respected panel of jurors known for their experience in home design, real estate, and media fields.

Winning entries were recognized for their aesthetics, craftsmanship, functionality, and originality. Woodmeister worked with interior designer Michael Lee from R. Fitzgerald and Company of Boston to create this award-winning project.

Woodmeister's award-winning entry in the *Living Room* category was a large built-in wall unit designed and custom fabricated for audiovisual equipment. The cherry wood wall unit featured retracting doors, leaded-glass door display cabinets, and screened doors for sound distribution. Fluted pilasters were topped with dentil details and triangular Grecian pediments. Beautifully finished in a multi-step stain and glaze technique, the surface was created to look aged and antiqued.
